**SENATOR JOHNSON
LOSES GRIP UPON
SOUTH CALIFORNIA**

LOS ANGELES SECTION
HAS STRONG FEELING

IS DRY TERRITORY

Voters Suspect Incumbent
Leans Toward Wet Side;

Los Angeles, Cal.—This is the section of California in which Senator Hiram Johnson seems to have lost his grip. So intense is the anti-Johnson sentiment that as powerful indeed as regular a republican newspaper as the Los Angeles Times has announced that while it will not endorse the democratic nominee it will on the other hand decline to ask the people to support Johnson.

Some of the falling off in Johnson stock here may be obtained by examining the primary vote for president two years ago when so nationally advertised and well liked a person as Herbert Hoover had difficulty carrying Los Angeles county by 1,500. This year C. Moore, candidate for the senatorial nomination and not to be compared with Mr. Hoover in prestige, carried the same county by 15,000 votes over Hiram Johnson.

Strange as it may seem, the opponents of the senior senator from California argue that he is no longer progressive and all that sort of thing. This is the dry country and they suspect Johnson, however reticent, he may be on the subject, to lean toward the wet side.

Hiram Johnson will have to depend as usual upon the northern part of the state for his majority. He will need more votes from the north to win than ever before. And winning with Johnson in this instance is not merely polling more votes than the democratic opponent, but retaining the support of the republican rank and file on a numerical basis that shall be the equivalent of a vote of confidence. The republican registration is practically four to one greater than the democratic totals. But California had somewhat the same disposition between the parties when Woodward Wilson carried the state by

DEMOCRATS FLAY KLAN BACKING OF REPUBLICAN SLATE

ENDORSED LA FOLLETTE
CANDIDATES, EXCEPT
LEVITAN, CLAIM.

PLANS REVEALED

Morgan Repudiated K. K. K.
Support in Campaign, Says
Statement.

(BY ASSOCIATED PRESS.)
Madison—The Ku Klux Klan raised its head in Wisconsin politics for the first time Friday when the democratic state central committee issued a statement signed by W. D. Carroll, secretary, repudiating the Klan endorsement of republican candidates as "the most distasteful attempt ever made in this state to poison the minds of the people in a political campaign."

He said that the plan of no organization had just come to light through the big meeting held in Milwaukee on Saturday night, Oct. 7. It asserted that the fact that state officials granted permission to the Klan to use the state fair grounds is but a mere technicality and that the Klan had no right to be there. The statement was made to rescind the order until after the democratic candidate for governor called public attention to the danger of such an organization.

"Whether politics had anything to do with this 11th hour refusal or not, the governor and other state authorities in charge have not thus far enlightened the public," the statement added.

Attorney General Morgan, the statement said, had vigorously repudiated the Klan endorsement, declaring he had "no sympathy for any organization, organized to foster prejudice against any race or creed."

Thurston D. Follette State, the central committee said, "endorsed the present republican candidates, with the exception of the nominee for state treasurer, and we have no opinion as to whether this endorsement had any bearing on the fact that all of the aspirants for state offices qualify as eligible to the Ku Klux Klan except the treasurer, whose candidacy was forced on us by the Klan."

"That the endorsement of this organization was acceptable to the candidates requires no further proof, for it was not the Klan, but the state, which repudiated the Ku Klux Klan as it was to Mr. Morgan."

Referring to the claim of the democratic committee that the secret had been revealed by the state, Follette declared that as long as he was governor "state property would not be used by an organization which suppresses the identity of its members, and attempts to prevent the use of its officers and members, operating in the dark or otherwise."

He said that when informed of the Klan meeting in Milwaukee, he had directed that no use be made of the grounds for the organization.

TAKING NAME IN VAIN ROILS U. S. CLARENCE LEAGUE

Newark, N. J.—A "Clarence Anti-Defamation League" is under way to wage pitiless warfare against the name of Clarence. This league, which is organized in Newark, N. J., has been known for some time as the "Clarence League of America." It is organized to take the name of Clarence out of the country to organize against defamers of the name.

"How many times have you heard the name Clarence," said the league's secretary, "and how many times have you heard the name Clarence in connection with the name of Clarence? Well, so have I and I don't propose to stand for it any longer."

Massy asserted that hundreds of famous men have been named Clarence.

"Some smart alecks of recent years have come to look upon the name of Clarence as a joke," the letter continues.

"The sum of it is that anybody named Clarence is a mollycoddle. All the Clarences I have known have been upstanding two-fisted men. Whenever any one ridicules the name of Clarence, I impress upon him that he is not funny, only foolish."

Massy is sending letters to Janesville managers.

CHANCELLOR FIRES OPENING SALVO IN PREMIER'S DEFENSE

BREAKUP OF COALITION
WOULD MEAN DIRECT
ACTION, CLAIM.

DEFENDS POLICIES

Austen Chamberlain Takes Firm Stand for Lloyd George in Campaign.

(BY ASSOCIATED PRESS.)
Birmingham, England—Austen Chamberlain, government leader in the house of commons, in a sensational speech to the Midland Conservative club here Friday declared the coalition government must be continued.

His speech indicated the line on which Premier Lloyd George will make his fight for political life in the next general election and removed doubt as to whether Mr. Chamberlain, as unionist party leader would support his chief.

Special significance attached to the speech inasmuch as the premier was said to be availing pre-announcement to learn what support he had in writing the speech he will deliver at Manchester Saturday.

Mr. Chamberlain took his stand in favor of the coalition on the grounds that the country faced a great national danger in the labor party. If labor obtained a majority, he declared, direct action would triumph over the government, which would not be allowed to lead but would be forced to take instructions from the labor caucus.

Defends Foreign Policy

The unionist party leader asserted the country must not hand over an expeditionary national construction to the subversive, if not revolutionary, party. He defended the government's foreign policy, which had been heavily attacked by the political opponents of the government. He declared the government's policy had prevented the confederation in Asia Minor from spreading to Europe.

Potash Valuable On Low Lands to Increase Yields

Potash gave remarkable results on the low land of the farm belonging to Langdon White, town of Rock. Last year Mr. White found, by running a small demonstration, that the land responded to potash. This year he purchased 1,500 pounds through the Farm Bureau and applied it with a fertilizer attachment to his corn. This fall the result is quite noticeable. An excellent yield will be secured on the corn fertilized with potash, while the unfertilized strip is practically a failure.

Mr. White is very enthusiastic about potash on low land and a demonstration has been arranged for Tuesday, Oct. 17 at 2 p. m. on his farm. Prof. Gifford Richards, soil expert from the college of agriculture, and R. T. Giesco, county agent, will conduct the demonstration, and the success of the low land is urged to go to Mr. White's farm and see what potash will do.

Demonstration Shows Swine Fed at \$4.26

Pigs were fed for \$4.26 a hundred and sold for \$9 a hundred by Charles Marquette, who has been running a pig feeding demonstration under the auspices of the animal husbandry department of the college of agriculture.

Mr. Marquette made the profit of \$4.74 per hundred on 25 head. A total of 1,512 pounds was made. At 9 cents this gives \$134.78. The total cost of the feed during this period was \$62.11, leaving a net profit of \$72.67. These figures were taken up to Sept. 30 on that date the pigs were turned out.

WOMEN AND MEDICINE

In Europe, years ago, a woman named Hildegarde wrote a notable book on medicinal plants. In those days the men were too busy botanizing about dogmas of religion and medicine and the study of herbs was thought beneath their notice.

It was the women, however, who mostly conducted the hospitals and cared for the sick, and thus they learned much of great value. They let the men fight out the questions of theories.

Lydia E. Pinkham's Vegetable Compound prepared from fifty years' experience by a woman, who has been a successful physician for over fifty years, did then, and does now, relieve the ailments peculiar to women. It is a vegetable compound and of great value for this purpose. This is proven day after day and in your own neighborhood by grateful women who have used it.

Sunlight A La Carte

Good morning! Had your sunlight? The newest scientific theory is that sunlight is not only a stimulant and purifier but an actual food for animal as well as plant life.

Certainly, there's no doubt about the tonic properties of the sunlight shed by a bright and kind disposition. What a godsend is the person who dispenses a warming and heartening influence in all sorts of mental weather—who helps bring happiness to the home, the office, the store, the factory, the school. It's so easy—and natural—to love such people, isn't it? And we can't escape the inclination to follow their example. What a power for good is the dispenser of sunlight!

Do You Wake Up With a Grouch?

The normal, healthy, vigorous person rises with a smile, and a breakfast is a feast. If you wake up with a grouch, there's something wrong.

Generally ill temper, crossness and what we call "breakfast grouches" are due to an under-nourished condition. Not enough vitamins in food dietary.

SHURTLEFF'S Ice Cream, the high vitamin ice cream, is splendid for this unnatural condition. It contains a higher percentage of vitamins because the exclusive processes used tend to preserve these precious elements of food, which are destroyed in ordinary ice cream.

Try eating less heavy, greasy, indigestible foods, for lunch, and more SHURTLEFF'S ICE CREAM. It is good fuel for the human power plant. Be sure that you are getting SHURTLEFF'S Ice Cream, for it is the cleanest and purest.

GRAIN

Chicago Review. — Higher prices for wheat here resulted Friday morning from a rise in Liverpool quotations and from continuing transportation difficulties on this side of the Atlantic, preventing accumulation of any general wheat supply and creating an urgent demand for prompt shipment of other grain, especially corn. Most of the selling appeared to be of a profit taking character. The opening, which ranged from 4c 3/4 to 4c 1/2, with Dec. 10c 1/4, 10c 1/2, and May 10c 1/4, 10c 1/2, was followed by a slight reaction and then a fresh upturn. Subsequently, a report that 1,500,000 bushels of Canadian wheat and some U. S. wheat had been taken for Europe tended to uphold values. The close was firm, 10c 1/4 to 10c 1/2, with Dec. 10c 1/4, 10c 1/2, and May 10c 1/4, 10c 1/2. Corn displayed independent strength from the outset with May and July corn securing new price records for the season. After opening 5c 1/4 to 5c 1/2, the market held near to the initial range. An estimate that Argentina has only 2,000,000 bushels of wheat for export was considered as bullish. The market closed firm, 10c 1/4 to 10c 1/2, with Dec. 10c 1/4, 10c 1/2, and May 10c 1/4, 10c 1/2. Provisions were weak.
